

The 2021 Declaration of Independence

When, in the course of human events, it becomes necessary for one people to fundamentally alter the political bands which connect them with their federal government, and to assume the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to stop the Democrat (Communist) party's "progressive" movement and return our federal government to its original and proper limited government role.

We hold these truths to be self-evident, that all men and women are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are established and derive their just and limited powers from the consent of the governed. That, whenever any form of government becomes destructive of these ends, it is the right of the people to alter it and implement the changes that are needed to re-establish the original principles of the Constitution and re-organize the government's powers in such form, to ensure their safety and happiness.

When a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce the people's right under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new safeguards for their future security. Such has been the patient sufferance of our country's citizens; and such is now the necessity which constrains them to alter their current systems of government. The history of the "progressive" movement is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over the people. To prove this, let facts be submitted to a candid world.

The Immoral Left has passed laws that run counter to what is most wholesome and necessary for the public good.

The Corrupt Left has forbidden state legislatures to pass laws of immediate and pressing importance, unless suspended by the courts; and when so suspended, has utterly neglected to attend to them.

The Crony Left has refused to pass laws for the accommodation of large districts of people, unless those laws adhere to the top-down demands of the political elites in Washington DC, which is invaluable to those political elites and formidable to tyrants only.

The Obstructionist Left has avoided and interfered with the working of our representative governmental units (for example, by getting on an airplane and leaving the state of Texas) so that the work of the state legislature becomes suspended.

The Dictatorial Left has passed laws and mandates that are invasions on the rights of the people.

The Globalist / One-World-Order Left has pursued foreign policies that have exposed our country to all the dangers of invasion from without, and convulsions within.

The Open-Borders Left has ignored / obstructed our country's laws relating to immigration and the naturalization of foreigners, while refusing to adhere to existing laws that were written to improve our country's immigration system and encourage appropriate legal immigration.

The Racist Left has attempted to re-write our country's history with the publication of The 1619 Project and the teaching of Critical Race Theory in our public schools and universities.

The Lawless Left has obstructed the administration of justice, by refusing to enforce laws that have been passed, and for allowing the judiciary (rather than the legislature) to write our country's laws.

The Despotic Left has continually blocked the people's will by blocking attempts to implement Term Limits and has encouraged the proliferation of career politicians who desire nothing more than to rule over We-the-People.

The Rapacious Left has erected a multitude of new offices and agencies and sent hither swarms of officers to harass our people and eat out their substance.

The Antimilitary Left has ignored the federal government's primary role of protecting our country from evil forces in the world.

The Treasonous Left has conspired with other countries to subject us to a jurisdiction foreign to our Constitution and has subjected our country to the constraints imposed by these global entities.

The Voracious Left has imposed new and burdensome taxes on us without our direct consent, spends money that we do not have, and steals that money from future generations by putting those federal government debt obligations onto the backs of our children and grandchildren.

The Tyrannous Left has deprived us, in many cases, of the benefits of trial by jury, preferring our country's citizens to "settle out of court" in order to avoid the coercion and tyranny that has been imposed on We-the-People.

The Capricious Left has established an arbitrary government, so as to render it at once an example and fit instrument for introducing the same absolute rule and tyranny over We-the-People.

The Progressive-Agenda Left has violated some of our most valuable laws, starting with the Tenth Amendment and has fundamentally altered the forms of our governments.

The Autocratic Left and a growing, more invasive federal government has run roughshod over our states' legislatures and has declared itself to be invested with power to legislate for us in all cases whatsoever.

The Criminal Left and its efforts to defund our local police departments has allowed criminals to complete the works of death and desolation, already begun with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy of our great nation.

The Anarchic Left has excited domestic insurrections amongst us and has endeavored to use this chaos to further the objectives of the "progressive" movement.

The Centralized-Big-Government Left continues to attempt to federalize our country's election laws and further erode the integrity of our elections.

The Anti-First-Amendment Left continues to attack our Freedom of Religion rights in their attempts to institute a secular society.

The Intolerant Left and their Big Tech / media allies have trampled on our Free Speech rights.

The Anti-Second-Amendment Left continues to chip away at our rights to bear arms, which are necessary to protect our families and our unalienable rights from an over-reaching tyrannical federal government.

The Anti-Article V Left continues to disseminate lies about / obstruct the Convention of States' attempt to propose amendments to the Constitution to impose fiscal restraints on the federal government, limit the power and jurisdiction of the federal government, and limit the terms of office for its officials and for members of Congress.

In every stage of these oppressions, Conservatives have petitioned for redress. Our repeated petitions have been answered only by repeated injury. A federal government, whose character is thus marked by every act which may be defined as being tyranny, is no longer fit to be the ruler of a free people.

Nor have we been wanting in attentions to our elected officials. We have warned them repeatedly of attempts by the political elites to extend an unwarrantable jurisdiction over us. We have reminded our elected officials of our rights under the Constitution. We have appealed to the government's native justice and magnanimity and reminded the government about our shared principles of Liberty, e pluribus unum, and In God We Trust, so that the government would disavow these usurpations, which would inevitably interrupt our connections and correspondence. The federal government has been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity to wholly reject the Democrat (Communist) party's attempt to fundamentally transform and destroy America, and instead return to the original conservative values that laid the foundation for the most Moral, Peaceful, Multicultural, and Prosperous country in history.

We-the-People therefore appeal to the Supreme Judge of the world for the rectitude of our intentions, and do, in the name, and by authority of the good people of these states, solemnly publish and declare, that we are free and independent individuals who live in free and independent states; that we reject the divisive policies of the Democrat (Communist) party and the tyranny of the federal government, and will do all other acts and things which an individual citizen of our country has the right to do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred honor.
